

# SITE PLAN MINIMUM REQUIREMENTS

1234 Goatkeeping Lane, Thornton, CO 80229 (5)

(1) **Goat shelter** shall be a minimum of 50 square feet, and a maximum of 120 Square feet. Label **dimensions** of the goat shelter. Square-footage is calculated by multiplying the length (L) of the structure by the width (W) of the structure. (For example, if the shelter floor is 15 feet long, and 8 feet wide, the square-footage of the shelter is  $15 \times 8 = 120$  square feet).

(2) **Open space\*** must be at least 300 square feet. Label the **dimensions** of the open space. Square-footage is calculated by multiplying the length (L) of the open-space by the width (W) of the open-space. (For example, if the fenced area is 20 feet long, and 20 feet wide, then the square-footage of the area is  $20 \times 20 = 400$  square feet).

(3) Shelter should be **set back** at least 5 feet from the property line.

(4) Label all easements on the property. Easements must stay open and unobstructed.

(5) Include address on site plan.

**\*Note: All fences over 30 inches in height require a building permit.**

# SITE PLAN MINIMUM REQUIREMENTS
